

SERADELLA PINK - FRENCH

EMENA

NON BLOATING ANNUAL

EMENA features a high level of hard seed with continual breakdown over summer and autumn. It is a deep rooted variety that is suitable for a wide range of soil types including highly acidic and infertile sands. It is header harvestable and has a good tolerance to Red Legged Earth Mite and Aphids. It is non bloating and free of phytoestrogens.

- High level of hard seed
- Deep rooted
- Suitable for a wide range of soil types
